Book Fair starts this weekend

The 2017 Annual Founders Book Fair opens its doors at 10am this Saturday 3 June – Queen's Birthday Weekend – and promises to impress. This year's Book Fair runs through until Sunday 11 June, 10am-4,30pm each day. Entry \$2 per person, \$5 for a nine day pass, children free. See you there!

MAYOR'S BOUQUET

This month's bouquet recipients, Biddy and Adrian Myers, are recognised for their generosity in sharing their environmental knowledge with the children of Clifton Terrace School.

As neighbours of the school, Biddy and Adrian have become founding members of a new permaculture group there, tirelessly giving up their time to help support the school's environmental efforts. They have been building new garden vegetable beds, running compost and green manure workshops and passing on their 30 years of experience to the children on how to create productive and healthy gardens.

As well as their generosity at the school, the couple had previously been involved with the Waimarama Community Gardens for over four years as trustees and regular volunteers. They helped to promote, encourage and teach the public about how to successfully grow healthy food using sustainable methods.

It is a pleasure to be able to acknowledge their generosity, as they selflessly provide wonderful learning opportunities for our children and our community.

If you know someone you consider worthy of a Mayor's Bouquet, just follow these easy steps:

Green light for Maitai to Rocks Road cycle path

The Maitai to Rocks Road cycle path, which Council sought feedback on earlier in the year, will now progress through to detailed design and construction.

The cycle route will connect the existing Maitai shared path near Wildman Avenue, to the proposed Haven Precinct and existing amenities on Wakefield Quay.

The preferred option is for a shared path on the seaward side of Haven Road and improved on-road commuter cycle lanes.

The Works and Infrastructure Committee agreed to support recommendations that the NZ Transport Agency take the lead on the delivery of the project. Under this recommendation, the project will be funded by central government's Urban Cycleway Fund. Delivery of the project will continue to involve council officers to ensure it is

integrated with other projects in the area.

Chair of the Works and Infrastructure Committee, Paul Matheson says, "The support from the Transport Agency is very welcome and makes a lot of sense. As the cycling improvements run alongside the state highway, it is appropriate for them to take the lead on project delivery

"The availability of central government funding to deliver the project is great news as this will allow us to enjoy this new facility to make it safer for cyclists on this busy stretch of road, while reducing the impact on rates for Nelson residents," Councillor Matheson says.

in a different light

Nelson City Councillors recently experienced first-hand what it's like to move around our community while affected by sight or hearing loss, shortness of breath and limited mobility.

They spent an hour in the city experiencing a variety of simulations, using wheelchairs, mobility scooters. crutches, glasses that replicate sight loss, earmuffs and straws (to mimic restricted breathing). They visited popular places around the city, including Queens Gardens, the library and a supermarket to experience the challenges that each venue provides.

Works and Infrastructure **Committee Deputy Chair Stuart** Walker says, "This gave Councillors an opportunity to experience these challenges first hand. It helps us to consider how current and future infrastructure may need to change to meet those challenges. "We have already altered the way

we install driveways across footpaths

a younger audience with a range of access points including local history, local artists, theatrical display, digital media and a fascination with murder and CSI type investigations.

The Museum Project Excellence Award went to what was described as 'the beautiful and carefully redeveloped Suter'. A Council partnership project, it was described as 'visionary and clever' with huge involvement from our great community: 'This project was fully embraced by the people of Nelson, who are justly proud of both the historical and contemporary aspects of their much-loved gallery

Young Nelsonians to share their inspirational stories

Young Nelsonians who are living their dreams out in the real world will take centre stage at an event aimed to inspire the next generation of young people to discover and follow their own dreams.
